Best warranty on the market!

# KX210

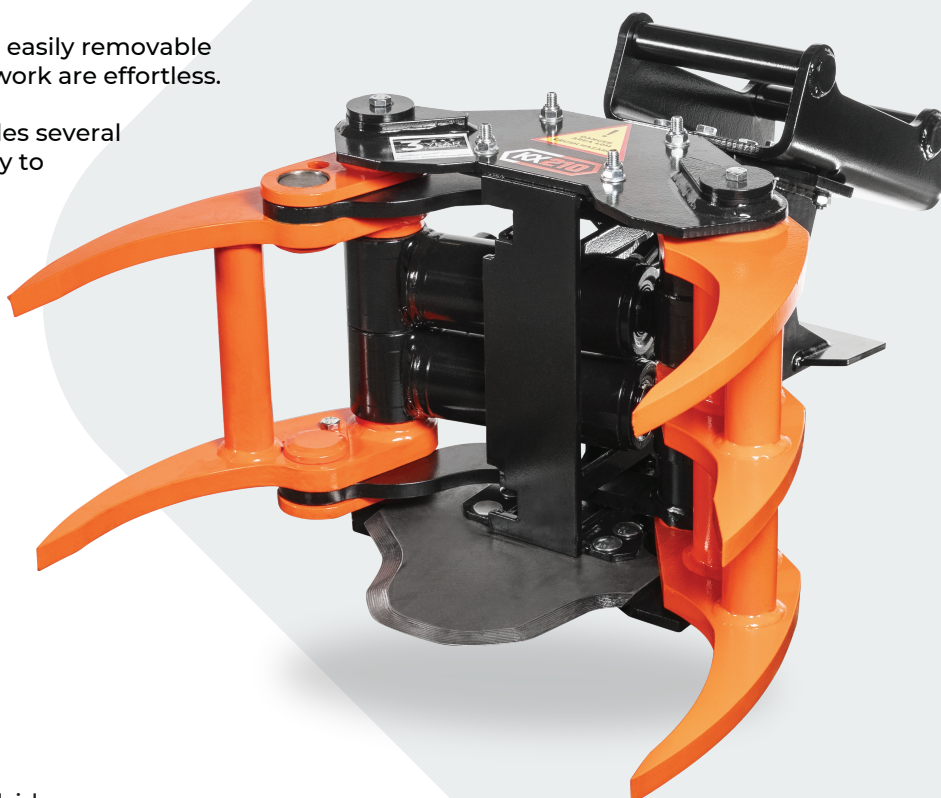

## Tree shear

The KX-210 is a new kind of energy wood grapple.

The result of long experience and continuous development work is an easy-to-use, efficient and lightweight energy grapple that can be used for many different applications.

Thanks to the modular structure and the easily removable blade, logging, clearing and installation work are effortless.

The optional mass handling device enables several successive cuts and thus brings efficiency to timber harvesting.

## Suitable for:

- For clearing field edges, plots and roadside
- Thinning
- Installation work
- For removing problematic trees and branches
- For rescue and clearing work

## Technical information:

Model	KX-210
Weight	150 kg
Suitable for	Excavator 1,5-5t
Grapple opening	670 mm
Cutting diameter	210 mm
Maximum allowed working pressure	300 bar
Warranty	1 (+2) years

# KX280

## Tree shear

KX-280 Tree Shear is an all-rounder for forestry work, which can be used to clear out fallen logs and thinning forests. Just remove the blade and witness the benefits of your new best friend in loading and installing work.

The innovative modular structure makes KX-280 Tree Shear a versatile tool with superior usability. Based on vast experience and users' needs, the development of this product was achieved by taking carefully in consideration the environmental aspect and values – this light and nimble grapple ensures a neat outcome without damaging the surrounding timber.

Due to the modular structure, each part is interchangeable, which makes KX-280 Tree Shear a durable, cost-effective partner. You can further increase the logging power and its speed by purchasing a collecting device as an accessory that allows up to twenty consecutive cuts.

KX-280 Tree Shear is easy to set-up and install. Our support team is always at your service and can be reached by phone. We will guide you through the early stages and, if you choose so, give tips on efficient use of the grapple.

KX-280 Tree Shear has been tested by professionals. Its high-quality raw materials were carefully selected in order to put KX-280 Tree Shear to a trial under extreme northern conditions. Thus, we are able to offer the best 1(+2) years warranty available on the market.

## Suitable for:

- Clearing field edges, plots, and roadside.
- Thinning.
- Installation work.
- Removing problematic trees and branches.
- Rescue and clearing work.

## Technical information:

Model	KX-280
Weight	300 kg
Suitable for	Excavators 5 to 15t
Grapple opening	890 mm
Cutting diameter	280 mm
Maximum allowed working pressure	300 bar
Warranty	1 (+2) years

# KX350

## Tree shear

KX-350 is a new kind of energy wood grapple. The result of long experience and continuous development work is an easy-to-use, efficient and lightweight energy grapple that can be used for many different applications.

Thanks to the modular structure and the easily removable blade, logging, clearing and installation work are effortless.

## Suitable for:

- Clearing field edges, plots, and roadside.
- Thinning.
- Installation work.
- Removing problematic trees and branches.
- Rescue and clearing work.

## Technical information:

Model	KX-350
Weight	670 kg
Suitable for	Excavators 13-25t
Grapple opening	1145 mm
Cutting diameter	350 mm
Maximum allowed working pressure	300 bar
Warranty	1 (+2) years

## Accessories

The collecting device speeds up the harvesting of wood used for energy production. The collector keeps the cut wood in the grapple and allows up to 20 consecutive cuts.

### Technical information:

Suitable for excavators	6 to 15t
Weight	98 kg
Warranty	12 months
